Creating a great shopping experience for you and your customers.Q: Determine device, serial number and manufacturer from extended class stored procedure As part of a log export solution, I need to be able to determine if a device is being managed by a certain manufacturer and, if it is, send the product name and serial number in a CSV file so that it can be manually updated using a spreadsheet. I have created an extended table logging class with an insert stored procedure that I want to use to dump the details, but I've not found a way of determining the device, serial number and manufacturer. I can currently see the device name and serial number in the sys.dm_exec_requests view, but I am struggling to come up with a script that will only ever export the details from the current session/user. A: I have actually been able to find a solution to this using the MERGE INTO statement. I first had to add the extended table to the schema using a script like: CREATE TABLE [Extended_Device_Log] ([device_name] [nvarchar](max) NOT NULL, [serial_number] [nvarchar](max) NOT NULL, [manufacturer] [nvarchar](max) NOT NULL, [model] [nvarchar](max) NOT NULL, [model_number] [nvarchar](max) NOT NULL, [last_update_date] [datetime] NOT NULL, PRIMARY KEY CLUSTERED ([device_name] ASC)WITH (PAD_INDEX = OFF, STATISTICS_NORECOMPUTE = OFF, IGNORE_DUP_KEY = OFF, ALLOW_ROW_LOCKS = ON, ALLOW_PAGE_LOCKS = ON, FILLFACTOR = 90) ON [PRIMARY], CLUSTERED ([serial_number] ASC)WITH (PAD_IND
